

4-IN-A-ROW

Great fun for the whole family. This game can be played by 2 players both indoors & outside. The box contains 1 grid, 2 poles, 2 side panels, 6 screws, 1 peg & 42 counters. Assemble the game as shown below:

Each player picks a colour to play with & one of the players starts by dropping one of their counters into the grid. Now the next player drops one of their counters into the grid. The object of the game is to place 4 counters of the same colour in a row – either diagonally, vertically or horizontally. Players may block each other by dropping their counters on top of existing rows. The winner is the first to get 4 of their counters in a row.

If all counters are dropped into the grid & no-one has 4-in-a row, then it is a draw & the game should be replayed until there is a winner.

Suitable for players aged 6 & over. Younger players should be supervised. This game is made from 100% FSC® certified wood. Item number: 4IN014. Warning! Not suitable for children under 3 years. Choking hazard- small counters & wooden peg. Please retain this information for future reference. Mightymast Leisure Ltd, Rendlesham, IP12 2TW. UK. Tel: 01394-460896
